

SKILLS SUMMARY

- **Technical:** JAVA, Web Technologies, SQL, C, PYTHON
- **Frameworks:** Pandas, Numpy, Matplotlib
- **Tools:** Excel, PowerPoint, MySQL
- **Platforms:** Visual Studio Code, Eclipse IDE
- **Languages:** Odia, Hindi, English
- **Soft Skills:** People Management, Collaborator , Rapport Building

PROJECTS

- Online Banking Application | [LINK](#)

March 2024- April 2024

 - Developed a Full Stack Online Banking Application, implementing secure authentication protocols, user account management, and real-time transaction processing using modern web technologies and SQL database integration.
 - Designed and integrated responsive front-end interfaces with a robust back-end, ensuring efficient data handling, secure online transactions, and comprehensive financial management features for users.
- Hotel Management System | [LINK](#)

November 2023- December 2023

 - Developed a full-stack Hotel Management System using HTML, CSS, JavaScript and SQL facilitating efficient guest management, room reservations, and billing processes.
 - Implemented features such as real-time room availability, automated billing, and customer feedback systems, enhancing user experience and business functionality.
- E-Commerce Website | [LINK](#)

June 2023- July 2023

 - Implemented secure user authentication and efficient order management systems, enhancing the security and functionality of the platform.
 - Optimized SQL database queries for fast and reliable data retrieval, ensuring a smooth browsing and shopping experience for users.

CERTIFICATES

- Cisco Networking (CISCO) | [CERTIFICATE](#)

May 2023

 - Certified in Cisco Networking with expertise in design, configuration, and troubleshooting.
- IT Automation (COURSERA) | [CERTIFICATE](#)

November 2023

 - Gained proficiency in Python scripting and automation tools to streamline repetitive tasks, reducing manual intervention and improving efficiency.
 - Acquired skills in Git, GitHub and configuration management to automate workflows, enhance version control, and manage cloud-based deployments effectively.
- UI & UX Designing (COURSERA) | [CERTIFICATE](#)

April 2024

 - Completed a UI/UX Design Specialization on Coursera, gaining expertise in user centered design principles, wireframing, prototyping, and usability testing.
- Full stack web development (TEACHNOOK) | [CERTIFICATE](#)

June 2023

 - Completed an in-depth course covering HTML, CSS, JavaScript, SQL. Deployed responsive web applications, created RESTful APIs, Database Management.
- Java Training Complete Course (UDEMY) | [CERTIFICATE](#)

July 2024

 - Gained comprehensive knowledge in core Java concepts including object-oriented programming (OOP), data structures, algorithms, exception handling, and multithreading.

EDUCATION

C.V. Raman Global University	Bhubaneswar, Odisha, India
Bachelor of Technology (Computer & Software Engineering); CGPA: 7.69	October 2021- May 2025
St. Xavier senior secondary high school	Berhampur, Odisha, India
CBSE Class XII (Science); Percentage:69.5%	April 2020- June 2021
Odisha Adarsha Vidyalaya	Bhatakumara, Odisha, India
CBSE Class X; Percentage:84.6%	April 2018- May 2019
